- Trevor Haman - SO (DB/WR) 5'11 185-lbs

Synopsis of 2022 team: We have 3 returning starters on the offensive line. But depth will be an issue this season. We have only 7 seniors which is the smallest group we have had in 10 years. We do have a very talented group of skill players. Led by freshman QB, Elijah Haven. He will become the next “big thing” out of Baton Rouge, but he is still only 14 years old. Last year we were able to use our size and experience to our advantage to make a deep run. This year, we will still be aggressive in our attack but we will not be able to get into long, sustained drives.

Top College Prospects (name, positions, height/weight):
