Synopsis of this year's team:

This year's team features many role players and of those players the Blue Jays will need a handful of those guys to turn into household names for the Jays to be on top. The Blue Jays play a demanding schedule filled with non-district talent to go along with a talented Catholic League. With only a handful of returning starters, we will need some guys that are used to being role players to perform at a high level and elevate the guys around them. AMDG
